

Concordia University, Irvine
Facility Services - Fall 2008 Survey
Verbatim Comments

Campus Status	Gender	What other specific changes or improvements would you like to see the facilities service departments make to improve service to the campus community.
1st year student	Female	pick up trash in the parking lots even though it is the students mess it should still be taken care of
1st year student	Female	faster service or acknowledgement of my request
1st year student	Male	Nothing in particular
1st year student	Male	n/a
1st year student	Male	none
1st year student	Female	Air conditioning in the residential halls
1st year student	Female	THE CARD MACHINES WE USE TO PUT MONEY ON OUR ID CARDS IS ALWAYS BROKEN
1st year student	Female	Install some way of keeping water in the shower.
1st year student	Female	Just to answer maintenice calls in an effective and fast way.
1st year student	Male	Clean trash around campus, for example trash in bushes by sigma
1st year student	Female	The bathroom sinks backflow sometimes...
1st year student	Female	Your facilities are excellent
1st year student	Female	If anything could be done to the dorm rooms over the summer to stop ant infesting them 4 times in a month that would be helpful. Tape put up around the molding of the wall, or some sort of pestiside sprayed
1st year student	Female	the computer rooms in sigma have no internet, only one computer works, and the printer is broken. It's pretty much useless.
1st year student	Male	Clean carpets in dorms over the semester breaks. Signs regarding how to contact maintenance.
1st year student	Female	THE AIR CONDITIONING CAN BE BETTER.
1st year student	Male	mark buildings with names. go through rooms after each semester and make improvements.
1st year student	Female	I would like to see the facilities service department make an improvement by adding in more sidewalks around the baseball diamond and the amphitheater. There is always mud and everyone walks on the grass anyways, so I think it would be a good idea to put in sidewalks in these areas. Also, I think that there should be more residential parking, with the high number of incoming freshman, it has made it hard for residents to be able to fins decent parking near there dorms.
1st year student	Female	Cleaner around living areas. No more mice or rodents
1st year student	Female	Better Internet and Phone Service
1st year student	Female	Everything seems good
1st year student	Male	better up-keeping of athletic facilities. i.e. weightroom and baseball field
1st year student	Female	none.
1st year student	Male	im just wondering why we cant bounce balls in the dorm halls
1st year student	Female	Nothing really, they do a great job and i really appreciate them!
1st year student	Male	we need air conditioning in the residence halls.
1st year student	Male	Not Much
1st year student	Male	nothing
1st year student	Male	I would like to see the bushes and hedges trimmed, especially in Sigma. Rho has a lot of appealing plant life and Sigma does not.
1st year student	Female	be on time
1st year student	Female	I would like to see faster repairs done. The computer Lab in Sigma has been broken since school started. I have called a couple of times, but the computers still remain unusable. I would also like to see the cafe cleaner. Sometimes when I go into the cafe there is food all over the salad bar and it looks like it has not been cleaned for days.
1st year student	Female	I think that everything is good :)
1st year student	Male	the air conditioning is always too cold
1st year student	Female	I believe that having a place for commuters to get together or study would be very helpful to their academic success.
1st year student	Female	maybe vaccum the residential areas on a regular basis because there is so much dust.
1st year student	Female	putting recycling trash cans around the campus
1st year student	Male	We need more parking near the dorms, or institute rules so that people living in the dorms don't have to park and walk so far.

Concordia University, Irvine
Facility Services - Fall 2008 Survey
Verbatim Comments

Campus Status	Gender	What other specific changes or improvements would you like to see the facilities service departments make to improve service to the campus community.
1st year student	Female	Air conditioned dorms and cable.
1st year student	Female	Some type of ait conditioning system in the dorms. Also, when i first check into my dorm i specifically said i ddin't have a microwave and i still don't have one. BUT i have to say that when it comes to having problems with plumbing, maintenance takes care of it right away. My biggest thing is that we dont' have air conditioning.
1st year student	Female	none
1st year student	Male	add maybe a path back at the theater.
1st year student	Male	we have excellent service
1st year student	Male	Sweep the hallways of the residence halls once a week.
1st year student	Male	Some of the grass areas are just mud and the grass is gone
1st year student	Male	The campus is already a very nice one, but there are always little things that can be improved upon. I have noticed in some class rooms that the heating and air do not work correctly. This is the only thing I can think of at this time.
1st year student	Female	I have been very impressed with the amount of time and effort that goes in to keeping our school maintained. I am a first year student and I really appreciate everything that has been done to maintain a healthy enviroment. Thank you for everything!
1st year student	Male	I don't really know. the facilities services have been great so far.
1st year student	Male	Encourage students to throw away trash, not leave it on the ground in classrooms.
1st year student	Female	Have more people working to get maintenance requests done faster.
1st year student	Male	THEY NEED TO BE BETTER EQUIPPED
1st year student	Female	The gardeners could come in a little later like around noon, just that it can get distracting around classrooms.
1st year student	Female	Don't have the air-conditioning on subzero all the time!
1st year student	Female	More trash cans in residential areas. There are the dumpsters, but more regular trash cans around the halls would be nice.
1st year student	Female	quiet hours during the day- people take naps!
1st year student	Female	Cable in the dorm rooms would be greatly appreciated.
2nd year student	Female	better lighting, and better communication between students and staff to repair facilities
2nd year student	Female	better lighting on track
2nd year student	Female	To notify us sooner on things that affect us directly. Also to address needs of residents in a more timely manner.
2nd year student	Male	Prompt service of residential repairs
2nd year student	Female	Get a more organized system for the way in which we put in requests.
2nd year student	Male	better internet service
2nd year student	Male	lights on the outside basketball court.
2nd year student	Female	Prompt returns on facility calls. PLEASE!!!
2nd year student	Male	Better/faster internet, Energy efficient windows, air conditioner?, cable t.v. in all rooms not just the living room, better beds(Hurt people's backs), improve kitchen area conditions, improve cafeteria food, provide more parking(too many people) later quiet time rules, no opposite sex privacy rules, offer more extra curricular activities.
2nd year student	Male	None, everything is fine.
2nd year student	Female	i would really like having air conditioning in the dorms beacuse it has been so hot the past few years-it gets to be very uncomfortable and hard to study in there.
2nd year student	Female	I would like to see track lights put up.

Concordia University, Irvine
Facility Services - Fall 2008 Survey
Verbatim Comments

Campus Status	Gender	What other specific changes or improvements would you like to see the facilities service departments make to improve service to the campus community.
2nd year student	Female	More trash cans/ recycle bins to lessen the trash on the grounds. More ashtrays. Cleaner grounds in the residence halls- gum on ground, and leaves blown everywhere. cleaner windows in buildings
2nd year student	Female	The lofting or bunking of beds really needs to be done earlier. I have not been able to fully unpack and organize because they haven't come around to loft my bed. I am very dissatisfied with that.
2nd year student	Female	There are two things that I believe could maybe improve on. The first would be when a maintenance call is made, that maintenance will respond faster to the problem. I know i called the first week of school for something and still have not received help yet. Also the lighting on campus. There are certain spots on campus at night that do not have the best lighting and can be dangerous walking late at night
2nd year student	Female	The maintenance of residential areas is a confusing thing to go about. I understand somewhat how to go about it, but it is still a confusing and slow process.
2nd year student	Male	In my personal experience, it is overwhelming that some classrooms do not have a well working projector such as powerpoints. In my case, my Spanish professor and the students are struggling because we cannot fully present topics due to problems with the whole projecting system.
2nd year student	Male	Make sure that all departments have the right extension number and that the numbers are easily ready for students. I called maintenance last week and I had the wrong extension. When I asked for the right one, the people re-directed me to the Academic Advising building. No one could tell me the correct extension when I tried for a second and third time. Also, when my roommates and I moved in we put a request in to loft our beds. Not only have they not done this request but we have had to re-confirm our desire for lofted beds twice.
2nd year student	Female	make sure all the dorms have ferns. because some of us can not afford to get one.
2nd year student	Female	There should be a cooling system in the dorm rooms and not just a heater. I also feel that the dorms should be allowed to utilize window air conditioners since we are not provided with a way to cool down from the university.
2nd year student	Female	The areas around the living spaces are not clean at all. That is largely due in part to the uncleanness of the students who reside here. There have been steps taken this year to ensure more cleanliness (charging for garbage outside room) but I think that students would respect the grounds and campus more if it were impeccable to begin with.
2nd year student	Male	lights on the tennis courts..unacceptable that I team that was ranked number 6 in the nation does not have lights to practice properly
2nd year student	Male	Founder's Hall needs 'Spring cleaning' and some maintenance.
2nd year student	Male	To handle situations in a timely manner. I.E. Painting of quads which could have been completed during the summer, along side other facilitative repairs that remained untouched until AFTER students arrived.
2nd year student	Female	quicker at responding to maintenance requests
2nd year student	Male	Could be better about picking up litter. Already doing fairly well, and I hate to say the staff needs to clean up after us heathen children, but the trash is annoying.
2nd year student	Female	It would be great to have easier access to put in a request to fix things in the dorms.
2nd year student	Female	I would like to have a way of viewing or being notified of the status of pending maintenance services requested. Perhaps online requests.
2nd year student	Female	I would like to be able to have air conditioning in our residential areas or at least some kind of temperature control.
2nd year student	Female	More trash cans around the dorm rooms.
2nd year student	Female	I would suggest cleaning the rooms before new students move in. I was told football players lived in my room over summer, and there is a lot of mold, as well as roaches.

Concordia University, Irvine
Facility Services - Fall 2008 Survey
Verbatim Comments

Campus Status	Gender	What other specific changes or improvements would you like to see the facilities service departments make to improve service to the campus community.
2nd year student	Female	The Gym Bathroom needs repairs because the doors do not lock and the paint is falling off.
2nd year student	Female	Have air conditioning inside of the dorms rather than heat if we cannot have both. Also work on having a consistency of the electricity and water flow instead of having it shut off several times during the year.
2nd year student	Male	Quicker response times.
2nd year student	Female	More plants and trees in the upper quads. Better areas for students to hang out outside. More parking!
2nd year student	Female	I Just think that If someone request Maintenance service, and they are unable to fix the problem. They should let the students know that they are unable to.
2nd year student	Male	More workers
2nd year student	Male	I would like to see improvement in dining services.
2nd year student	Male	All i really want is for downstairs shower areas to have something to prevent water from leaking over the ledge of the floor.
2nd year student	Male	lighting on campus sprinkler systems that do not get our cars filthy
2nd year student	Female	Cleaner laundry rooms --less broken machines Quicker response time
3rd year student	Female	-Lights on the stairs behind beta. -The heaters in the quads don't work..seems really silly to keep them. -Possibly not do weed blowers/lawn mowers etc. next to the dorms until 9 am at the earliest. -keep the new "technology" in the bathrooms by the atm/cafe
3rd year student	Female	Clean up the trash in the bushes, sidewalks; there are a lot of cig butts everywhere.
3rd year student	Female	Better times for food services available to off-campus students who don't have a pass to eat in the main dining hall and better control of room temperatures, especially in contrast with outside temperatures.
3rd year student	Male	keeping up on the daily cleaning in the dorms
3rd year student	Female	If at all possible, it would be nice to know where to find the hours that maintenance works.
3rd year student	Female	A lot of the times, vending machines and smart card machines don't work.
3rd year student	Male	Fix the speed bump between upper and lower quads. Not have lights on way late at night at places where there are no people, yet keep lights on that are in areas where people are (like Grimm Hall) for after night classes. Fix the broken lights behind the CSLD/Bookstore/Academic Advising.
3rd year student	Female	More communication when it comes to maintenance requests. Last year, it took over two months to get a screen and blinds, which was disappointing because I'm deadly allergic to bees, so it meant I could not open my window during the hotter part of the semester. Plus, I had no idea of the status, I had to keep calling to make sure it had not been forgotten. For school activities/departments, they seem to respond quickly. However, sometimes the aspects of the Residential Halls seem to be a lower priority, which is sometimes difficult because we do have to live in them.
3rd year student	Female	They are doing a fine job keeping the residential areas clean. However, temperature wise in academic areas needs improvement. Timeliness with facility requests needs to be faster as well.
3rd year student	Female	Just inform students of times they are going to be working or be quiet during the quiet hours in the morning.
3rd year student	Male	Fix the blinds in the residential area, and clean up the trash.
3rd year student	Female	do a better job of informing people
3rd year student	Male	When requesting a change to get updates on it, whether it is email or a note. Not having to restate my problem every day and to be continually updated on the situation is key.

Concordia University, Irvine
Facility Services - Fall 2008 Survey
Verbatim Comments

Campus Status	Gender	What other specific changes or improvements would you like to see the facilities service departments make to improve service to the campus community.
3rd year student	Female	The residential areas are in desperate need of some form of air conditioning. It can get miserably hot in our rooms and it that can be very unhealthy. Maintenance workers are always very friendly but the services are rarely completed, we have many requests that have been looked at but never fixed.
3rd year student	Female	None
3rd year student	Female	Better communication between students requesting service and the maintenance department. It would help if students are made aware of an approximate time the maintenance department will be addressing the issues.
3rd year student	Female	Have maintenece get in thier orders quicker or let the students know when thier order will be done by approximatley
3rd year student	Male	Quicker responses to maintenance needs.
3rd year student	Female	not mow lawns so early
3rd year student	Male	No comment.
3rd year student	Female	Air Conditioning in Library Arts building. The hot temperatures are ridiculous and makes it hard to learn.
3rd year student	Female	Installation art!!! Something all campuses have more of than CUI does. Something our art students could build!
3rd year student	Female	There is more lighting on campus
3rd year student	Female	None
3rd year student	Male	An improved path under the tree near the outdoor amphitheater, I'm tired of slipping every day.
3rd year student	Male	An update about when certain requests will be fulfilled.
3rd year student	Female	I would like the hours service is available to be made more clear. I think it would be neat to be able to e-mail maintenance requests, like the way IT requests are made.
3rd year student	Male	The temperature in the dorm rooms becomes extremely hot at times
3rd year student	Female	I would like to see the temperatures in the restrooms be comfortable as well. Many of them are extremely warm for example our restroom inside of the gym.
3rd year student	Male	Parking improvements:-Too many ineffective speed bumps where people just speed over.-Speed enforcement on Concordia W/E and Dorm Rd.-Sprinkler system sprinkles into street/parking areas.
3rd year student	Female	Quicker response to maintenance needs
4th year student	Female	Can't think of anything at this point.
4th year student	Male	Improve lighting. There are lights out all over campus, from baseball parking to residence halls to areas in between buildings. Also, please fix the fountain. Last time I saw it (10/08/08) it was half empty and the jets were all slightly off-center and they all spray at different angles and they all spray in a very wide, sloppy pattern.
4th year student	Female	Better availability of maintenance staff.
4th year student	Female	A speeder process of maintenance requests and also a simplified process for checking on maintenance requests. Also some kind of system for RA's to know what maintenance requests are in their halls and the status of those requests
4th year student	Female	The main area that i believe needs more attention is maintenance. The way we put in requests is confusing. When a request gets put in for maintenance to come they don't come for about a week if they come at all. Academic and dining areas are very well maintained but when it comes to fixing problems around the residence halls it seems almost impossible to have anything fixed.
4th year student	Female	The classrooms are freezing!!! I spend most of my time in Grimm Hall (6 out of 7 classes) and my other class in the SU, and I'm always wearing a sweater. Also, most of your classrooms are like dungeons...I wish there was more natural light.
4th year student	Female	Fixing the dark areas on campus such as the stairs by Beta and Gamma, as well as lighting on the track.
4th year student	Male	AIR IN THE DORMS, WASHERS AND DRIERS THAT WORK
4th year student	Female	none

Concordia University, Irvine
Facility Services - Fall 2008 Survey
Verbatim Comments

Campus Status	Gender	What other specific changes or improvements would you like to see the facilities service departments make to improve service to the campus community.
4th year student	Female	Make the academic rooms have adjustable temperature settings. Give the residence rooms air conditioning.
4th year student	Female	Doing the most important things first. It is almost mid semester and we are still violating firecode because we don't have the right bed frame. res life and maint. are aware of this.
4th year student	Female	The classrooms are freezing cold especially in the Student Union class rooms. It is extremely difficult for me to pay attention at all because i shiver during the summer months in those class rooms.
4th year student	Female	More parking spots
4th year student	Female	The temperature in the Student Union classrooms is very cold, making it difficult to pay attention in classes. It is very distracting!
4th year student	Female	Maintenance and repair of the older classrooms on campus (Founder's Hall especially) could be improved. Otherwise you guys do a great job.
4th year student	Female	none
4th year student	Female	I feel women's bathroom in the gym is constantly ho, humid, and smelly. It is not enjoyable to use the restroom, even if it just to freshen up. I feel this is an important restroom because students and parents utilize this restroom during our athletic events. Concordia is consistently clean and welcoming, however this restroom does not fit into that at all.
4th year student	Male	Keep up the maintenance. It looks good!
4th year student	Male	The trees need to be trimmed. Some of them are hazards and I've seen to many fallen limbs on this campus. It's only a matter of time before one falls on somebody.
4th year student	Female	Older restrooms need to be updated or at least better maintained. The library could use a good cleaning as the carpets and chairs are dingy/dirty and worn. The part of campus near Grimm Hall seems to be better maintained and the school should consider bringing the rest of the campus to the standards they have set with the newly landscaped areas. Also, technology that is standard in Grimm rooms should be applied to the older classrooms on campus as well.
4th year student	Female	Add more benches around campus for those who would like to sit and wait for their classes outside if they don't have a dorm room to go wait in.
4th year student	Male	I like it this way. It is clean
4th year student	Female	The card readers on campus are not very reliable and are often down at times there is no one available to fix them. It would also be helpful to have a reader in the quads. There also should be some way to put coins into the machines since laundry costs .75 to dry.
4th year student	Female	None.
4th year student	Female	make the campus wheel chair accesible
4th year student	Female	There should be an easier way to submit mantaience requests and someone who gets back to you, and lets you know when it will be taken care of.
4th year student	Female	More ash trays, and more colorful flowers not just all green.
4th year student	Female	Even faster service is all i could think of, im satisfied
4th year student	Female	THE LOUNGES IN THE RESIDENT HALLS
4th year student	Female	A suggestion would be to put a trash can or something to put cigarettes in for those who smoke outside of Sigma near the dumpsters.
4th year student	Female	For next year, have construction and painting done before regular fall semester classes start
4th year student	Female	More dining choices for the CUAccelerate students.
4th year student	Female	The new paint looks great, however we just got screens put on that look terrible around the edges. It looks very sloppy put together. The classrooms (especially in student union) are FREEZING!!! (especially for night classes)
Employee	Male	More campus signage. Visitors frequently cannot find their way due to poor signage. Staff is great but not provided with proper resources. Housing areas are poorly maintained, doors broken. It is evident that not enough funding is provided to handle maintenance issues. Too much deferred maintenance that never happens.
Employee	Male	None to suggest at this time.
Employee	Male	The maintenance department should keep on top of door repair, emergency sign placement, parking stall paint conditions.

Concordia University, Irvine
Facility Services - Fall 2008 Survey
Verbatim Comments

Campus Status	Gender	What other specific changes or improvements would you like to see the facilities service departments make to improve service to the campus community.
Employee	Female	Better idea of how to request services.
Employee	Female	a better job of vacuuming in the athletic training room
Employee	Female	Very satisfied with response and correction of every facilities service request I have sent.
Employee	Male	Increased distribution of public trash cans. I am typically inclined to pick up trash I see and throw it away, but I have found that when I do pick up trash, often my only option is to carry it back to my office. This has led me to be less inclined to pick up trash I see.
Employee	Female	Recycling bins Trash cans that birds cannot get into so the trash is not spilled by bird
Employee	Female	Stairwells cleaned regularly. Paint re-touched in stairwells annually. Exterior windowsills removed of leaf clutter semi-annually.
Employee	Female	information on where ATM's, snack and drink vending machines are...etc
Employee	Male	For students sake, time grass mowing near residence halls later in the morning or even in the afternoon. Check sidewalk areas where bricks have sunken below concrete level and repair. Repaint mail center - many students, faculty and staff visit this area and it looks just "old".
Employee	Prefer Not to Answer	Please wash the windows periodically. Also, cleaners do not get the cobwebs and often do not even sweep the floors when they are supposed to, much less get dirt and dust bunnies on the floors along the walls.
Employee	Female	clean offices more often. Clean restrooms every day.
Employee	Female	Mostly keep the general appearance of the University clean so that guests have a good first impression of the campus.
Employee	Female	I would like to see the scuff marks on the walls in Grimm Hall cleaned or painted over.
Employee	Female	Campus cleaner for prospective students and families to see
Employee	Female	keep grounds clean daily includin cleanliness of bathrooms.more trashcans around campus
Employee	Male	None.
Employee	Male	Dusting window frames and empty shelves
Employee	Male	Paint Alpha hallways/stairwells.
Employee	Female	I'd like to see whatever causes ceiling tiles to be stained repaired, and I'd like to see fresh paint in the corridors.
Employee	Male	I am not happy with the timeliness of repairs to resident halls. I am not altogether happy with the responce to various needs across campus. I often get complaints about how long it takes to get something done.
Employee	Male	attend to any trash in our parking lots/campus right away. This is not a one man duty but everyone even myself to pick up trash that is on his or her path. Concordia PRIDE in all departments.
Employee	Male	We need better signs and maps of the campus. The map between Admin and FH is years out-of-date
Employee	Female	More signage
Employee	Female	When a request is sent in, let the sender know the status of the request either by e-mail or a phone call.
Employee	Male	perhaps an e-mail queue like IT has
Employee	Female	Awareness; for example, a broken sprinkler should not go unnoticed for days or weeks.
Employee	Male	Office carpeting is filthy.Office furniture unavailable.Telephone is old and outmoded.
Employee	Female	Directional signage in Grimm Hall is very important.
Employee	Female	I'm still freezing here!Too much AC in my cube
Employee	Female	This is more so for the safety and well being of the maintenance crew. I noticed the gentlemen blowing the sidewalks. Is it possible for them to wear masks and goggles to cover their eyes and nose/mouths? I'm concerned that they're inhaling all that dust, etc.
Employee	Male	must clean up the campus...way too much trash, overcrowded dumpsters, trash cans not pickup, athletic facilities in poor shape
Employee	Female	I would for mold to be dealt with in the offices. I think it's disgusting that we are expected to work in an unhealthy environment.
Employee	Female	can't think of anything

Concordia University, Irvine
Facility Services - Fall 2008 Survey
Verbatim Comments

Campus Status	Gender	What other specific changes or improvements would you like to see the facilities service departments make to improve service to the campus community.
Employee	Male	I've noticed that the facilities service department can sometimes "forget" about a minor repair project but will take care of it once they've been asked over and over. So it would be good to be more responsive (but my sample size is small).
Employee	Male	Nothing I can think of.
Employee	Female	In the restrooms, the water faucets are so old. I guess it is for saving cost, but it is not so good.
Employee	Male	Check lights that are out, fix sprinklers that are broken, and possibly have a maintenance worker on at night for issues that occur after hours. If not every night, 1 or 2 nights, on a staggered schedule.
Employee	Female	none
Employee	Female	I think you are doing a wonderful job.
Employee	Male	none
Employee	Female	Cleaner tables in the patio outside of Eagle Rock Cafe.
Employee	Female	Some way for us to track our maintenance request.
Faculty	Female	None at this time
Faculty	Female	Improve communication and response time.
Faculty	Male	I think that your department has done an outstanding job. Keeping up with old, outdated machines is quite a job!
Faculty	Female	Restrooms really need updating- very foul smells and poor conditions in most restrooms
Faculty	Male	keep trees and plants trimmed. They often block sidewalks in both width and height
Faculty	Male	We have persistent problems in some buildings (e.g., temperature control in the Studio Theatre and a number of classrooms and offices, leaking or overflowing plumbing in some restrooms) that don't ever seem to get fixed properly. I realize that some of these fixes are expensive, but in some cases the problems have persisted for YEARS, and we haven't resolved them, with the result that students and sometimes outside patrons conclude that the University staff are either uncaring or incompetent.
Faculty	Female	Have more trash cans so students throw their trash away.
Faculty	Male	None that I can think of.
Faculty	Female	Better smelling Alpha first floor bathroom.
Faculty	Male	overall it's good- sometimes prolonged disfunction of technology (and screens in Grimm) give the appearance of campus decay
Faculty	Female	Pick up trash from the grounds outside of Grimm Hall on a more regular basis.
Faculty	Male	Gym 203 can use some work. (Ceiling A/C rattles when turned on high and general appearance of classrom could be improved.
Faculty	Female	Have a CUI email address for facilities services that is not limited to Housing. There are mold issues in some of the restrooms that are getting out of control.
Faculty	Male	An electronic format for submitting work requests, with timely updates of progress in completing requests.
Faculty	Female	they are doing a great job with the resources they have
Faculty	Female	Fix the root problem of the air conditioning problems in the CUC
Faculty	Male	We need more directional signage.
Faculty	Male	cooler temperatures during summer months in gym and bathroom areas
Faculty	Male	none that I can think of
Faculty	Male	Make sure that night time lighting is working in all areas
Faculty	Female	Have a regular schedule of cleaning carpets, painting & generally improving the cleanliness and appearance of administrative & faculty buildings.
Faculty	Female	Repair of chairs, desks, and other furniture in classrooms.
Faculty	Female	the one big thing that comes to mind is the fact that some classrooms are absolutely FRIGID. It's hard to work/focus when it is so cold.the second thing is to stop OVER-watering the grass- particularly in between the gym and Admin. It's wasteful of our resources and makes the grass look trashy. I'd rather have less vibrant green grass and more flowering plants and nice bushes. Plus grass really doesn't need that much watering in our area since we get the marine layer coming over the campus with TONS of moisture every night.

Concordia University, Irvine
Facility Services - Fall 2008 Survey
Verbatim Comments

Campus Status	Gender	What other specific changes or improvements would you like to see the facilities service departments make to improve service to the campus community.
Graduate/Professional Student	Male	None I can think of.
Graduate/Professional Student	Female	bathroom, temp
Graduate/Professional Student	Male	Concordia is a beautiful and well maintained campus!!
Graduate/Professional Student	Male	please keep up the good work.
Graduate/Professional Student	Male	Improve Wi-fi Access. Extend administrative Office Hours & Bookstore Hours, For those who live off campus or work full time.
Graduate/Professional Student	Female	The restrooms are dirty quite often.
Graduate/Professional Student	Female	Temperature in some classrooms (Foundation Halls) in the campus can be very cold one night and can be very warm the other night.
Graduate/Professional Student	Female	The facility guys are great. Once I was carrying a heavy backpack and a guy in one of the little trucks took it to the library for me so I didnt have to carry it so far. Facility guys are my heros! The grounds look like a park and they always have a smile on their faces:)
Graduate/Professional Student	Female	none
Graduate/Professional Student	Male	Clean the walls and repaint them; carpets which are stained should be removed and replaced with alternatives to another carpet. Replace the highschool style deskd and replace with different desks to accomodate an adult.
Graduate/Professional Student	Male	I think that the campus at night is very dark. I would like to see more light to increase campus safety.
Graduate/Professional Student	Male	the directional signage is almost non-existent. we really need some signage, especially in the Grimm Hall north building where guests arrive.
Graduate/Professional Student	Female	Not sure...
Other	Male	This is one of the cleanest campuses I've been to. Nothing that I can think of needs to be changed.
Other	Male	I get the impression that there is a need for more workers, but I understand that it is hard to find people in this area who are willing to do the work. I also have heard that the men and women find plenty of time to sit and relax in the maintenance area behind Rho, beyond what would be considered a reasonable break, but this is just a rumor and could easily be very mistaken.
